

SCHOOL OF PUBLIC HEALTH

UNIVERSITY AT ALBANY State University of New York

The Center for Public Health Preparedness and the
New York State Department of Health
Center for Environmental Health present

*The 3rd Annual Chemical & Radiological Training for
Public Health Professionals*

May 23-35, 2006

University at Albany School of Public Health – Rensselaer, NY

Instructional Methods: Didactic sessions and live demonstrations, group discussions and exercises at awareness and intermediate level of training.

Course Content: NIMS, CHEMPACK, HERDS, SNS, Risk Communication, Industrial Chemicals and Terrorism Agents, Chemical Detection Equipment, Personal Protective Equipment (PPE), Decontamination, and Radiation Basics, Protection & Response

Audience: Space limited to 75 - with priority given to local health department BT Coordinators. Public health response partners welcome if space allows.

Speakers: Current and former employees from the NYS DOH Bureaus of Emergency Medical Services, Environmental Radiation Protection, Occupational Health, Toxic Substance Assessment; the NYS DOH Offices of Fire Prevention & Control and Science & Public Health; and the University at Albany Center for Public Health Preparedness

Registration: Required by Monday, May 1, 2006. There is NO charge for attendance – though a \$25 no-show charge will apply (agency substitutes acceptable). Light breakfast and lunches will be provided. Participants are responsible for their own travel and lodging plans and expenses. Registration confirmation, hotel options, site directions and detailed agenda will follow submission of registration. Visit <http://tinyurl.com/8qmr8>

Credit Options: CME, CHES, and Nursing Contact Hours available; full participation in the Risk Communication and PPE sessions will meet State deliverables M-20 and L-4, respectively.
